

## When You Were With Me

**Intro: Am/G/C (2X)**

**Am/G/F/G**

**C**

When you were with me

**G**

There was anger and pain

**F**

**C**

Tension in the air that seemed to remain

**Am**

**F**

**G**

And the sky got dark and it started to  
rain every morning

**C**

When you were with me

**G**

There was silver and gold

**F**

**C**

Time just lay there and didn't get old

**Am**

**F**

**G**

Till the time you left without warning

**F C**

When you were with me

When you were with me

There were long afternoons

Alone together, music filled the room

There was no reason to leave, we had it  
all, a bond was forming

When you were with me

I never felt so good

Thought my life was working out the way  
that it should

I had a reason to get up in the morning

When you were with me

**F**

When you were with me

**G**

I didn't see the time

**C**

**Am**

Didn't hear your words, didn't change my  
mind

**F**

**G**

I didn't see your hunger or your longing

**F**

When you were with me

**G**

I didn't know you'd gone

**C**

Till you slammed me with the heartache

**Am**

**F**

And the war was on raging through the  
night

**G**

We were silent strangers the next  
morning

When you were with me

I guess I always knew you'd leave

And be one brief shining moment fading  
in the breeze

Now I know wherever I am or wherever  
you may be

**G**

**F**

**C**

You'll be with me, you'll be with me

**Outro: Am/G/C (2X)**

**Am/G/F/G**
